Installation and Service

REQUESTING SERVICE

Follow these simple steps when you need to order, change or stop your telephone service. Call our Customer Contact Center and speak with a customer service representative. Please be prepared to provide the following information:

- your full legal name
- your street address
- employment and credit information
- types of services you want
- your choice of long distance carrier
- information regarding your previous telephone number
- how you want your name to appear in the directory

COSTS TO BEGIN SERVICE

A one-time fee is charged to install or change your service. The use of telephone service for business purposes automatically subjects that service to business rates regardless of the type of premises where the telephone is installed. An advance payment or deposit may also be required.

If you need inside wiring or jacks, you have three options:

- You can have CenturyLink do the work at the cost of time and materials. Call our Customer Contact Center for a cost estimate.
- You can hire an independent contractor to do the work.
- You can do the work yourself.

CONNECTION CHARGES

Certain installation charges apply according to work performed. Charges could include:

- service order charge
- central office connection charge
- line connection charge
- wiring charge
- premise visit

DEPOSIT REQUIREMENTS

A deposit may be required from new applicants for service to guarantee payment for the service. If desired, the deposit may be paid in two equal install-ments. In lieu of a deposit, the Company will accept the written guarantee of another qualified customer.

The amount of a deposit will not usually exceed the amount of one month's local service and two month's toll service. Interest on deposits is credited to customer's accounts in January for the preceding year. For existing customers, a deposit will be required or increased if service is suspended two times in a 12 month period; the customer failed to pay a bill before the close of business on the shut-off date within the last 12 months; the customer gave the LEC 2 or more checks which were returned unpaid for reasons other than bank error in the last 12 months; the customer did not pay bills by the close of business on the due date 2 times in a row or any 3 times in the last 12 months; during the last 24 months, the customer misrepresented his identity or other facts relevant to the conditions under which the customer obtained or continued service; the customer used service without authorization, tampered with the LEC's equipment, or inflicted damage to the LEC's equipment during the last 2 years; and the customer used more service than the estimate on which the LEC based the deposit.

When final discontinuation of service is made by the Company, the amount of the deposit, plus accrued interest, will be credited to the customer's account. A deposit shall automatically be refunded if a customer has for a consecutive 12 month period, paid all bills by the due date and rendered no check that was dishonored for reasons other than bank error.

DIRECTORY LISTING OPTIONS

Every customer may be listed once in the White Pages of the telephone directory without charge.Enhancement options can be added for a small additional monthly charge.

It may be the responsibility of the management of these facilities to monitor and notify each tenant of this policy;
- If you subscribe to more than one line, you must subscribe to the inside wire maintenance plan on all lines in order for them to be covered.

TELEPHONE PROTECTION PLAN (TPP)

Our Telephone Protection Plan provides coverage for all of your eligible home telephones and Caller ID units against mechanical or electrical failure due to normal wear and tear or power surge. If your phone becomes inoperable for one of these reasons, you only make one toll free call to file a replacement request and a replacement phone is sent to you immediately for all covered requests. The process is convenient and easy. Call our Customer Contact Center for more information.

ALLOWANCE FOR FAILURE OF SERVICE

The Telephone Company does not guarantee uninterrupted working of its lines and equipment. In case service is interrupted other than by negligence or willful act of the subscriber, an adjustment will be made in the amount of charges for such service, equipment and facilities furnished as are rendered useless or inoperative. Any adjustment shall apply only to the period the interruption continues beyond twenty-four (24) hours after notice

Billing

of the interruption is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company. This failure of service applies only to local service within the subscriber's own exchange and does not apply to outages of toll lines or extended area service lines.

APPLICATION OF BUSINESS RATES

Business Rates apply at a residence location when the customer has no regular business telephone service and the use of the service by himself, members of his household, or his guests is more of a business than residential nature as might be indicated by advertising through newspapers, hand-bills, billboards, circulars, business cards or otherwise.

Suspension of service may be delayed when a "Serious Medical Condition" exists or when a "Delayed Payment Agreement" has been entered into with the Company. These options are available through the Customer Contact Center. When service has been discontinued, the Company will reconnect service as soon as the reason for the discontinuation of service has been resolved. Repair

LOCATING THE PROBLEM

Telephone service problems can be caused by customer provided equipment (CPE), inside wiring, jacks, telephones, security systems, wireless accessories, modems and any other devices within your premises or the CenturyLink® network. We encourage you to follow the troubleshooting tips before you call Repair Service to determine if the problem is the CPE in your premises or with the CenturyLink® network outside your home.

If the problem is found to be in the CenturyLink® network (outside lines, switches etc.), the repair is completed at no charge.

If the source of the problem is your CPE, a trip charge may be applied and billed to your account. A trip charge applies when CenturyLink dispatches a technician who travels, at your request, to your premises and finds the trouble to be in customer provided equipment. The trip charge is not a repair charge; it is a fee for travel time. Repair of the equipment or wiring is based on the length of time required to perform the repairs and the cost of materials used.

SELF-CHECK/ TROUBLESHOOTING

Before contacting CenturyLink for repair, save time and avoid a trip charge by double-checking your CPE to pinpoint the problem and testing for dialtone at the test point located in the Network Interface Device (NID). This test point disconnects CPE from the CenturyLink® network to allow testing directly with the telephone company.

It's CenturyLink's responsibility if:

- There's no dialtone when testing at the Network Interface Device (NID).
- The problem still exists when testing at the NID.

It's a customer's responsibility if:

- Testing at the NID indicates good, clear dialtone.
- A telephone works in one jack but not another.
- There is a loose or broken telephone jack.
- The push buttons are stuck.
- The cords are worn.
- The cord clips are broken.
- The receiver buttons are stuck.

TESTING WITH THE NETWORK INTERFACE DEVICE (NID)

See the inside cover of the NID for step-by-step instructions.

LONG DISTANCE CALLING

DIRECT DIALING

Calls made without operator assistance are the most economical. Place the call by dialing 1 + the area code + the number and you will be charged the appropriate rate.

OPERATOR ASSISTED CALLS

There is an additional charge for calls requiring operator assistance. These calls are more expensive than calling card calls or calls dialed directly from your home or office.

When away from home, you can choose the long distance company you want to handle your operator-assisted calls. Many companies provide collect, person-to-person, third-number billed and credit card services. Their rates may vary. You may ask any operator for company identification and rate information before beginning your call.

Person-to-Person Calls

Dial 0 + the area code + the number. Tell the operator you're making a person-to-person call to a specific person. You will be charged for the call when that specific person answers. You can place a person-to-person call when you call collect, use your calling card, or charge your call to a third number.

Third Number Billing

Dial 0 + the area code + the number and tell the operator you want to charge your call to a third number. If you're calling from a public telephone, the operator will call the third number to make sure the charges will be accepted. The call will not go through if the operator cannot get approval.

Collect Calls

Dial 0 + area code + the number and tell the operator you are making a collect call. The operator will hang up when someone at the number you have called accepts the charges.

BUSY LINE VERIFICATION

Some operator service providers offer busy line verification. There may be a charge for this service.

TIME AND CHARGES REQUEST

Dial 0 + the area code + the long distance number and tell the operator you want time and charges. When you finish the call, a computerized voice will return to the line to tell you what you will be charged.

SELECTING A LONG DISTANCE COMPANY

All telephone subscribers have the option to choose long distance companies for their 1+ calls.

IntraLATA long distance calls are calls that you place from your telephone to any community within your LATA that is not local (EAS.) InterLATA long distance calls are calls that you place from your telephone to any areas that are not considered local, EAS, or IntraLATA. Interstate calls are those that you place from your telephone to any location in another state. IntraLATA, InterLATA and interstate calls are long distance. The long distance company(ies) you have authorized will handle these calls.

"Equal access" allows you to choose the company you want to handle both types of calls. Once you have notified CenturyLink or your long distance provider of your choice, all your long distance calls will be automatically handled by this provider whenever you dial 1+ to make the call.

This includes local and most long distance calls. Non-published or non-listed numbers will be displayed to subscribers of Caller ID Service, unless Selective Call Blocking is utilized.

ASSISTANCE IN ESTABLISHING TELEPHONE SERVICE

Pursuant to requirements of the Telecommunications Act of 1996 (47 USC 214) CenturyLink, Inc. gives notice that it provides the core services required for federal universal service support. Such services are as follows:

(1) single party service,
(2) voice grade access to the public switched network,
(3) DTMF signaling or its functional equivalent,
(4) access to emergency services,
(5) access to operator services,
(6) access to interexchange service,
(7) access to directory assistance, and
(8) access to toll blocking for qualifying low income consumers.

Low-income customers may be eligible for special discounted local service rates. See the following information regarding the Lifeline Telephone Assistance Program.

Please refer to the CenturyLink tariffs contained on our website which contain detailed information on local service rates. **www.centurylink.com/tariffs**

LIFELINE TELEPHONE ASSISTANCE PROGRAM

CenturyLink participates in a program to make residential telephone service more affordable to eligible low-income individuals and families. This program, established by the Federal Communications Commission offers discounted basic local service to qualified customers. In addition, service deposits are generally waived for customers electing to place toll restriction on their lines. Monthly charges for toll restriction will be waived for customers requesting to have that restriction on their account.

Who is Eligible for Telephone Assistance?

Eligible customers are those that meet eligibility standards as defined by the FCC. Residents who live on federally recognized Tribal Lands may qualify for additional Tribal benefits if they participate in certain additional federal eligibility programs.

The Lifeline discount is available for only one telephone per household, which can be either a wireline or wireless telephone. A household is defined for the purposes of the Lifeline program as any individual or group of individuals who live together at the same address and share income and expenses. Lifeline service is not transferable, and only eligible consumers may enroll in the program. Consumers who willfully make false statements in order to obtain Lifeline telephone service can be punished by fine or imprisonment and can be barred from the program.

If you have questions or believe you may qualify for these benefits, please call your CenturyLink Residential Customer Service Representative.

ARKANSAS RELAY SERVICE

The Americans with Disabilities Act, signed into law in July, 1990, requires that all telecommunications utilities provide access to their services by Teletypewriters (TTY). To make a Voice to TTY or a TTY to Voice call, a Relay Service must be available. Specially trained personnel, known as Communication Assistants (CAs) act as a go-between and "relay" calls between deaf, hard of hearing, or speech impaired persons and the parties they call.

In order to avoid the necessity of each telephone utility establishing its own Relay Service, nationwide each state has chosen to set up a single statewide Relay Service. Each statewide service must be accessible toll-free from anywhere in the state, and must provide 100% confidential, professionally handled calls.

There is no extra charge for using Arkansas Relay Service (ARS), which is available 24 hours a day, 7 days a week. Charges for long distance calls are made at tariffed discount rates as if the call was a direct call.

Numbers to use for ARS are 7-1-1 or:

TTY Users	**1-800-285-1131**
Voice Users	**1-800-285-1121**
VCO	**1-866-656-8260**
HCO	**1-800-285-1131**
STS	**1-866-656-2966**
Spanish	**1-866-656-1842**

Customer services for ARS may be contacted at:

TTY/Voice **1-800-676-3777**

Do not call ARS for emergency help unless you cannot reach **9-1-1** or **9-1-1** is not available in your area.

SERVICES FOR THE DISABLED

If you are blind or hearing impaired or know someone who has a physical disability causing telephone hardship, the Telephone Company can help. For more information about special equipment for the disabled, call our Customer Contact Center.

HARASSMENT CALLS

It is against the law to make threatening, obscene or nuisance calls. Should you be the victim of a threatening call, report it immediately to the police. If you do receive obscene or nuisance calls and have identified them as such, follow these suggestions:

- Hang up.
- DO NOT provide any information about yourself.
- Advise your children to do the same.

If the calls continue, contact the police and a CenturyLink® representative for advice. Often, changing your number will resolve the problem.

(If available in your area, utilize Call Trace and report their number to the police. A charge may apply for this service).

YOUR RIGHTS REGARDING PAY-PER-CALL SERVICES

CenturyLink wants to be sure you are informed of your legal rights related to pay-per-call services. These are services you generally access through dialing prefixes like "900" or "700" and that charge by the call or by the minute. CenturyLink does not provide interstate pay-per-call services, but we do bill customers in our local service region on behalf of many third-party companies, including inter-exchange long-distance carriers and billing aggregators. A number of these companies, in turn, bill on behalf of pay-per-call service providers. You have specific rights and responsibilities regarding pay-per-call charges and we are providing

this notice in order to explain those rights as described in the federal Telephone Disclosure and Dispute Resolution Act (TDDRA).

To Report a Billing Error

If you believe you have been billed in error for any pay-per-call services, call the toll-free number listed on the bill page where the pay-per-call charge appears no later than 60 days after you receive the bill containing the charges; or 60 days after the goods you ordered were delivered or should have been delivered, whichever is later. When you call, be prepared to provide the following information:

- Your name and telephone number
- The date the disputed charges first appeared on your bill
- The amount of the disputed charges
- A brief explanation of why you believe you were billed in error

If you contact CenturyLink either directly or because CenturyLink is acting as the first point-of-contact for a pay-per-call billing entity about a disputed charge, CenturyLink will credit your bill for the disputed amount and refer the matter and the charges back to the billing entity. That billing entity, or the pay-per-call service provider, may elect to pursue further action, so it is always good to follow- up with the entity billing the charges on behalf of the pay-per-call provider to assure full resolution of your matter.

Response From the Billing Company

In the event you contact the company whose name appears on the bill page where the pay-per-call charge appears in a timely manner, they must acknowledge your claim in writing within 40 days if they haven't resolved your claim within that time. This company must also acknowledge that you are not required to pay the disputed charge pending resolution of their investigation. You must still pay the non-disputed portion of your bill; failure to pay may result in collections activity against you. If the disputed amount has already been sent to collections, the collection activity will be suspended. This same company must investigate, within 90 days of your initial complaint, whether or not the disputed charges are valid. If there was a billing error, the billing company will let you know and will adjust the charges as appropriate. If the charges have been referred to collections, the collections activity will stop. If the billing company determines the charges were not billed in error, you will receive a written explanation detailing how that conclusion was reached, how much you owe, and the date by which you must pay it. Failure to pay could lead to collection activity. If you continue to dispute the charges, the billing company should not report you as delinquent without also reporting that you continue to dispute the charges.

Compliance

Any long-distance carrier or billing aggregator acting as a billing agent for a pay-per-call service provider that does not comply with the federal rules may not collect the first $50 of any disputed pay-per-call transaction regardless of whether or not the disputed charges are discovered to be correct.

Additional Customer Rights

- You have a right not to be billed for pay-per-call services that do not comply with federal laws and regulations.
- Your local telephone service cannot be disconnected if you do not pay for pay-per-call services.
- You may request a block to prevent access to pay-per-call services from your phone line. CenturyLink will provide the block, where feasible, at no charge to you.

TELEMARKETING CALLS

Avoid the frustration sometimes associated with telemarketing calls by following these five steps:

- Find out who is calling; always secure the name of the company and individual with whom you are speaking.
- If you are interested in the product or service the caller is offering, request that information be sent to you via mail. Specify that you are not agreeing to purchase anything, but would like to review the information in writing.
- If you are not interested, politely interrupt the caller and end the conversation.
- If you are sure you do not wish to receive future solicitations from that company, ask to be removed from the company's list.
- DO NOT GIVE YOUR CREDIT CARD NUMBER unless you are certain the call is legitimate.

You may place your telephone number on the National Do Not Call Registry by calling **1-888-382-1222, (TTY 1-866-290-4236)** or online at **WWW.DONOTCALL.GOV.**

CUSTOMER INQUIRIES

A customer may verify the accuracy of a bill by contacting the Customer Contact Center. Our representatives are trained to handle customer inquiries promptly. Please contact our service representative and state your complaint. If you have a suggestion for resolving the complaint, please state it. Write down the name of the person to whom you talked.

If you are dissatisfied with the results of your complaint you may contact the Arkansas Public Service Commission. The number is **1-800-482-1164** (Little Rock **682-1718**) or write to 1000 Center Street, P.O.Box 400, Little Rock, AR 72203-0400.

SERIOUS MEDICAL CONDITION

The Company will reconnect or postpone the discontinuation of service to a residential customer, up to 30 days, if the customer presents a certificate from a physician stating that discontinuation of service will cause substantial risk of death or gravely impair the health of the customer, a member of the customer's family, or other permanent resident of the premises where service is rendered. The certificate may be renewed one time for an additional 30 days. The contents of the certificate must identify the medical condition, specify the effect of discontinuation of service, and specify the time during which discontinuation of service will aggravate the medical emergency. This certificate must be presented to the utility within 7 days. During the period that discontinuation of service is delayed, the residential customer shall be liable for all service rendered by the utility.

DEFAULT OF PAYMENT OR OTHER VIOLATION OF REGULATIONS

Charges for exchange service and facilities are due in advance. Charges for rent and long distance services are due when the bill for such service is rendered. All bills are payable by mail or at the Telephone Company's Greeter Station. Failure to receive a bill does not exempt the subscriber from prompt payment of his account. The subscriber is held responsible for all charges for exchange service and facilities furnished at his request, and for all long distance service furnished at his station or stations, including charges for toll messages received at his station or stations on which the charges have been reversed. In the event of default of payment of any sum for either exchange or toll service or both, the use of foul or profane language, the impersonation of any other person with fraudulent intent, or any other violation of the Telephone Company's regulations, the Telephone Company may suspend service.

International Calling

DIRECT DIALING

To dial international calls direct, dial in sequence:

1. The International Access Code — 011
2. The Country Code
3. The City Code
4. The local telephone number
5. The "#" key — where telephone is equipped with Touchtone dialing. This will speed your call along.

For example, to make a call to the city of London, you would dial:

011	+ 44	+ 20	+ ___
International Access Code	Country Code	City Code	Local Number

If you subscribe to a long distance service, call your supplier for dialing instructions.

OPERATOR-ASSISTED CALLS

To dial operator-assisted international calls, dial in sequence:

1. The International Access Code — 01
2. The Country Code
3. The City Code
4. The local telephone number

For example, to make an operator-assisted call to the city of London, you would dial:

01	+ 44	+ 20	+ ___
International Access Code	Country Code	City Code	Local Number

If you subscribe to a long distance service, call your supplier for dialing instructions.

Some countries have increased the number of digits included in their local numbers beyond that supported by many telephone company's networks. This primarily affects new telephone numbers. In general, numbers that are already assigned will not be affected. If you have difficulty completing a direct-dialed international call, please contact your international operator or dial 0 for assistance.

Emergency Preparedness

Emergencies and disasters can occur anytime, anywhere. Some are primarily seasonal and allow for certain preparations, other occur without warning. Planning ahead and making provisions for your family's needs can make a big difference in your ability to cope with emergencies. Detailed information on emergency preparedness is available from the American Red Cross and city and county agencies.

FLOODS AND FLASH FLOODS

Floods claim an average of 263 lives every year. Flood waters only one foot deep can sweep you off your feet. If you live in a flood-prone area, it is important to be prepared in case flooding does occur. Determine your nearest safe area above flood waters. Develop an evacuation plan. Remember that many roads, bridges, and existing drainages may be swept away by flood waters.

A flood WARNING means flooding is occurring or will occur soon. **If the National Weather Service issues a flood WARNING for your area, you should:**

- Turn off your utilities if your home is likely to be flooded.
- Fill your car's gas tank.
- Evacuate if you are told to do so. (See the following section on evacuation procedures.)

Flash floods are rapidly developing floods that can happen with little or no warning. Flash floods are most often caused by intense rainfall, severe thunderstorms, or breaks in a dam, levee, or dike. A flash flood WARNING means you may have only a very short time to escape. A flash flood can happen so rapidly that you may not even get a warning.

If the National Weather Service issues a flash flood WARNING for your area or if you suspect a flash flood is occurring, you should:

- Leave low-lying areas immediately.
- If you are driving, stay away from creeks and open ditches. If your car stalls in rapidly rising waters, abandon it IMMEDIATELY and climb to higher ground. The rushing waters from floods and flash floods are extremely dangerous.

Remember:

- Police barricades are there for your protection. DO NOT DRIVE AROUND THEM
- Flood waters covering roads and bridges have more force and power than you think.
- Walking or driving through flood waters is the most dangerous thing you can do.

EVACUATION PROCEDURES

You will receive instructions to evacuate the area in one of the following ways:

- The Emergency Alert System (EAS).
- A uniformed agent of law enforcement or the fire service will contact you.
- Mobile sirens, police, fire or other PA systems will be used to alert you.

Shelters will be available for residents who cannot stay with friends or relatives in other areas. The Red Cross has prearranged shelter sites throughout the community. If shelters need to be opened for emergency housing, listen to the EAS for the exact locations.

If there is time, take a moment to gather a few important items you may need. Do this as quickly as possible and leave as soon as you can.

IF YOU CAN, BRING THESE ITEMS WITH YOU:

- Prescription drugs.
- Food–if needed for a special diet.
- Eyeglasses or contact lenses.
- Change of clothing.
- Personal items–toilet articles, documents, photo albums.
- Bedding–sleeping bag, pillow, blankets.
- Baby or child supplies–diapers, food, toys.
- Money, credit cards, checks.
- Proper identification.
- Pets–provisions will be made for pets. They will stay in separate housing, but bring food if possible.

Emergency numbers are printed in the front of this directory.

TORNADOES

If you see or hear a tornado, seek shelter immediately. Bring a portable radio for news and weather updates. Lie flat and protect your head and eyes.

Here are some guidelines for seeking shelter:

In homes: Stay away from windows, doors, and outside walls. Go to the basement. If the house doesn't have a basement, go to a first-floor bathroom, closet, or another room at the center of the house. If possible, get under heavy furniture or cover your head with blankets or pillows.

In schools: Stay away from windows and large areas such as auditoriums and gymnasiums. Go to the basement. If there is no basement, go to a small interior room or a hallway on the lowest floor.

In public buildings: Stay away from windows. Don't go to your car. Go to a designated shelter area or to an interior hallway or a small room on the lowest floor.

In mobile homes: Get out immediately. If there isn't a reinforced building or underground shelter nearby, take cover in a ditch or valley.

NUCLEAR PLANNING AND RESPONSE

What is radiation?

Everything on earth is made of tiny particles called atoms. Some atoms give off energy. This energy is called radiation. Radiation is a form of energy that moves in waves or particles. It is found throughout the natural environment in the form of light, heat and radio waves. Nuclear radiation comes from radioactive material, such as uranium. There are also naturally occurring radioactive atoms in everything in the environment, even your own body. While you cannot hear, see, feel, taste, or smell radiation, it can easily be detected with special equipment. Radiation is a very natural part of our daily world. We all receive very small amounts of radiation each day from the air, food, the earth, and building materials. We are also exposed to radiation from other sources such as x-rays used by doctors and dentists and from consumer products such as TV sets. The amount of radiation that a person gets is measured in millirems. In Arkansas, the average radiation exposure from naturally occurring and man-made radiation is up to 180 millirems per year. Most studies indicate that radiation exposure of up to several thousand millirems per year, results in no measurable effect.

What is an emergency?

An emergency at a nuclear power plant could be caused by many things. State and local officials will be notified of any emergency that could cause the nuclear plant to become unsafe. There are four classes of emergencies at nuclear power plants:

NUE – notification of unusual event is the least serious emergency class. It means that something out of the ordinary has happened. People living in the area should not have to take any action.

ALERT – this class means plant safety could become a problem. State and local officials will go to their emergency centers to follow the situation. The general public should not have to take any action.

SAE – site area emergency, means the public might be affected. You should hear the Emergency Warning System. Tune in to your local radio stations for information. State and local officials will take action to protect those living in the area.

GE – general emergency, is the most serious emergency class. State and local officials will take action to protect people in the area. Stay tuned to your local radio stations for instruction.

Within 15 minutes of the time an emergency is declared at Arkansas Nuclear One, Entergy Operations, Inc. must notify state and local officials. Through use of the Emergency Warning System, state officials can notify the public of an emergency within 15 minutes. You will hear a steady siren signal lasting about 3 minutes.

PLEASE STAY CALM!

When you hear the sirens, listen to one of these local radio stations for information:

What about Sheltering?

Sheltering means to stay indoors. Close all doors and windows. Turn off sources of outside air. Close the fireplace flue if not in use. Remain indoors until told it is safe to go out. Use the telephone only for medical, fire or other extreme emergencies. If traveling in a vehicle, close winders, air vents and put the air conditioner on the maximum setting if needed. Always listen to your local radio station or NOAA weather radio for further instructions.

What about staying indoors?

Staying indoors simply means to do that: stay indoors. It is similar to sheltering, but instead of turning off air

CenturyLink®

conditioning and heat, you leave them running if necessary. Since mid-summer heat in Arkansas can often climb above 100 degrees, closing your home without air conditioning could present more of a health hazard than the one presented by a release at ANO. The filters in your home's heat and air system will act to filter some of the radioactive particulates that might be in the air in your areas because of a release at the nuclear plant. The Health Department believes this to be a logical and safe alternative to sheltering during weather extremes.

EVACUATION PROCEDURE

Look at the map on page 27 and find out which Care Center you would go to and how you would get there. If an evacuation begins, don't rush, you'll have time. When you leave home, tear out the "NOTIFIED" tag from the back of your Emergency Instruction Brooklet. Attach the tag to the front of your home so officials will know you have gone. As you leave the area, tell a neighbor about the evacuation. They may not know about the evacuation and may need a ride to a Care Center. You may need to stay at the Care Center for two or three days. This will depend on conditions at the plant. Listen to the radio for current information.

HOME SAFETY TIPS

Sheltering means to stay indoors. Close all doors and windows. Turn off sources of outside air. Close the fireplace flue if not in use. Use telephones only for medical, fire, or extreme emergencies. Remain indoors until told it is safe to go out. If traveling, close auto windows and vents and put air conditioner on maximum, if needed. Listen to you local radio station for further instructions.

SCHOOL EVACUATION PROCEDURES

Schools will be notified before the general public and students will be taken to a Care Center. Parents should not attempt to pick up their children at the schools since this will create a traffic problem. Once children are registered at the Care Center, they may leave with a parent or legal guardian. If it is necessary, students will be monitored for radioactive contamination.

WHAT ABOUT MY PETS?

For reasons of health and safety, it is strongly recommended that pets not be brought to any designated care center, however, it may be necessary under certain circumstances to do so. To facilitate the reasonable accommodation of common household pets, measures designated to assure a safe stay at the center are required. While pets will not be allowed inside the actual care center, facilities will be provided for the housing of your pet. Animals should be transported in, and remain housed in, portable containment devices while at the care center. Care for these animals, such as providing food and water, will be the responsibility of the owner. Veterinary care needed by individual animals will be provided by the pet's owner. River Valley, AR Yellow Pages Classified Directory

The Berry Company ("Berry") publishes directories on behalf of CenturyLink. Those directories include classified, or "Yellow Pages," sections. The Yellow Pages contain the listings of area telephone subscribers, classified under one or more directory headings for the purpose of identifying the nature of their business or profession. Berry and CenturyLink assume no responsibility for errors or omissions with regard to any free listings, or with regard to Yellow Pages listings. Such errors or omissions of free items may be corrected in a subsequent issue if reported in the following manner: 1) Paying Advertisers should reference their Terms & Conditions for contact information (http://www.theberrycompany.com/termandconditions/centurylink.pdf); 2) Residential and Non-Paying Customers should contact their local service provider. Liability for errors or omissions in paid-for listings and advertising, which includes Yellow Pages listings, is limited to, and shall not exceed, an abatement of the charges for such listings or advertising during the life of the directory.

Certain businesses or professions are subject to regulation by various governmental bodies or regulatory agencies, which require special approvals or the issuing of a license to do business. The regulation of those businesses and professions may also govern the manner and content of the advertising in the directory. It is solely the responsibility of those advertisers to assure their advertising complies with any regulation to which they are subject. Neither Berry nor CenturyLink assumes any responsibility or obligation that the organization of the directory or any advertising appearing in the directory comports with any regulatory scheme to which any advertiser is subject. Neither CenturyLink nor Berry warrant or represent that the professions and businesses listed in the Yellow Pages are validly authorized or licensed to do business. Questions relating to whether a subscriber advertising in the Yellow Pages is duly authorized or licensed should be directed to the appropriate governmental body or regulatory agency responsible for regulating such a business or profession.

Prices, percent discounts and offers listed in advertising, are listed at the advertiser's request. The advertiser is solely responsible for its content and obligation of fulfillment.

Creating a budget, remembering safety first and having the necessary tools are positive first steps to any home improvement project.

Use our guide to make your next home improvement project, what ever it may be, a success!

Top ten tools to have on hand:

1. **Hammer:** General-purpose 16 ounce
2. **Screwdrivers:** Flat and Phillips

Weddings are one of the most important days of the bride and groom's lives. Months of preparation and planning go into creating a unique celebration of the wedded couple's love. Pressure to fashion the "perfect day" can lead to stress and anxiety. A well organized and thought out event will be much more enjoyable than one that is disorganized and chaotic. - ☐ Get marriage license
- ☐ Make sure you have all accessories: toasting goblets,
- ☐ ring pillow, garter, candles, etc.
- ☐ Buy your wedding bands
- ☐ Make reservation for bridesmaids luncheon

Two Weeks Before:

- ☐ Reconfirm the accommodations for out-of-town guests
- ☐ Discuss with hairstylist your look for wedding day
- ☐ Verify bridal party attire

One Week Before:

- ☐ Give the final count to caterer and review details
